

Illustrator and Motion Designer 2D - Internship

ABOUT US

Founded in 2009, we are now a melting pot team based in Lisbon, Porto & Boston that has deployed more than 200 projects for our world-class clients.

Our team is made up of people with amazing knowledge on Design, Usability and Web/Mobile based Software. We're a user-centred & quality software-driven company. And we work with a passion for creating something new and cool.

Our goal is to find out ways to make your (and our users') life bliss.

Whether an iOS & Android mobile application for a fintech or a multi-platform e-commerce solution, we have the talent to meet our client's needs and beyond.

ABOUT THE PROJECT

Are you looking for the next step to enter the motion design job market? Then check this out! We are looking for a Junior Motion Designer to join our team. If you are the lucky one, you will have the opportunity to be involved in the execution of Explainer Videos (scripts creation, illustration and animation). And do not worry, you will have an amazing Mentor to guide you in this process.

Your responsibilities:

- Help in the baseline studies;
- Support in the script and storyboard creation;
- Assistance in UX/UI projects animation and simulate the user interaction;
- Support in the products presentation videos development;
- Creation, development, and exportation of animations to implement Web and Mobile apps;
- Setting-up promotion's videos for social media.

Ideally, your profile looks somewhat like this:

- Bachelor's Degree in Design, Multimedia, or related fields
- Hands-on-job attitude;
- Communication skills;
- Eager to learn.
